The screenshot displays the Apache JMeter 5.6.3 application window. The top menu bar includes File, Edit, Search, Run, Options, Tools, and Help. The main interface is divided into two panes. The left pane, titled 'Test Plan', shows a hierarchical tree structure under 'Thread Group 1'. The 'View Results Tree' node is selected and highlighted in blue. The right pane, titled 'View Results Tree', displays the results of the selected test. It includes fields for Name (View Results Tree), Comments, and a Write results to file / Read from file section. Below these, there is a search bar and checkboxes for Case sensitive and Regular exp. The results list shows a series of 'all-student-name request' samplers. The first 10 results are marked with a red 'X' icon, indicating failure, while the remaining 10 are marked with a green checkmark icon, indicating success. The results are displayed in a table format with columns for Name, Value, and Error. The 'Raw' tab is selected at the bottom of the results pane.
